

Multiplication and Division Fact Families

Name: _____ Date: _____

Use the three numbers to write two multiplication and two division facts.

A house-shaped template with a pink roof. The roof contains a red circle with the number 42, and two white circles with the numbers 6 and 7. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

A house-shaped template with a light blue roof. The roof contains a blue circle with the number 12, and two white circles with the numbers 6 and 2. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

A house-shaped template with a light green roof. The roof contains a green circle with the number 60, and two white circles with the numbers 10 and 6. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

A house-shaped template with a pink roof. The roof contains a pink circle with the number 70, and two white circles with the numbers 10 and 7. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

A house-shaped template with a yellow roof. The roof contains an orange circle with the number 16, and two white circles with the numbers 2 and 8. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

A house-shaped template with a pink roof. The roof contains a red circle with the number 50, and two white circles with the numbers 5 and 10. The body of the house contains four blank lines for writing facts:

$$\begin{array}{l} ___ \times ___ = ___ \\ ___ \times ___ = ___ \\ ___ \div ___ = ___ \\ ___ \div ___ = ___ \end{array}$$

Multiplication and Division Fact Families

Answer Key

Use the three numbers to write two multiplication and two division facts.

A house-shaped diagram with a pink roof. The roof contains a red circle with the number 42, and two white circles with the numbers 6 and 7. The body of the house contains four equations:

$$\begin{array}{l} \underline{6 \times 7 = 42} \\ \underline{7 \times 6 = 42} \\ \underline{42 \div 6 = 7} \\ \underline{42 \div 7 = 6} \end{array}$$

A house-shaped diagram with a light blue roof. The roof contains a blue circle with the number 12, and two white circles with the numbers 6 and 2. The body of the house contains four equations:

$$\begin{array}{l} \underline{6 \times 2 = 12} \\ \underline{2 \times 6 = 12} \\ \underline{12 \div 6 = 2} \\ \underline{12 \div 2 = 6} \end{array}$$

A house-shaped diagram with a light green roof. The roof contains a green circle with the number 60, and two white circles with the numbers 10 and 6. The body of the house contains four equations:

$$\begin{array}{l} \underline{10 \times 6 = 60} \\ \underline{6 \times 10 = 60} \\ \underline{60 \div 10 = 6} \\ \underline{60 \div 6 = 10} \end{array}$$

A house-shaped diagram with a pink roof. The roof contains a pink circle with the number 70, and two white circles with the numbers 10 and 7. The body of the house contains four equations:

$$\begin{array}{l} \underline{10 \times 7 = 70} \\ \underline{7 \times 10 = 70} \\ \underline{70 \div 10 = 7} \\ \underline{70 \div 7 = 10} \end{array}$$

A house-shaped diagram with a yellow roof. The roof contains a yellow circle with the number 16, and two white circles with the numbers 2 and 8. The body of the house contains four equations:

$$\begin{array}{l} \underline{2 \times 8 = 16} \\ \underline{8 \times 2 = 16} \\ \underline{16 \div 2 = 8} \\ \underline{16 \div 8 = 2} \end{array}$$

A house-shaped diagram with a pink roof. The roof contains a red circle with the number 50, and two white circles with the numbers 5 and 10. The body of the house contains four equations:

$$\begin{array}{l} \underline{5 \times 10 = 50} \\ \underline{10 \times 5 = 50} \\ \underline{50 \div 5 = 10} \\ \underline{50 \div 10 = 5} \end{array}$$
