What Happens Next? Picture Sequencing

Answer Key

Look at the first two pictures in each row. What happens next? Circle the right picture.

What happens next?
Circle it.

A sequence of three panels showing an ice cream cone melting. The first panel shows a whole ice cream cone. The second panel shows the cone with a small puddle of melted ice cream at its base. The third panel shows the ice cream completely melted into a puddle. Below the sequence are three options: a person jumping, a plate with a fried egg and a slice of toast (circled in red), and a slice of toast with jam.

What happens next?
Circle it.

A sequence of three panels showing a snowman being built. The first panel shows a snowman's head and a small snowball. The second panel shows a snowman's body. The third panel shows a complete snowman with a hat, scarf, and stick arms. Below the sequence are three options: a person using a test tube, a person standing, and a complete snowman (circled in red).

What happens next?
Circle it.

A sequence of three panels showing a plant growing. The first panel shows a watering can pouring water into a pot. The second panel shows a small seedling in a pot. The third panel shows a fully grown flower in a pot. Below the sequence are three options: a person standing, a fully grown flower in a pot (circled in red), and a toaster.
